FH-Klenz Enzymatic Hard Surface Cleaner (Food Grade)

➡ A unique concentrate combining innovative eco-benign<sup>®</sup> chemistry and a consortium of enzymes to offer an effective way of cleaning a variety of hard surfaces including food contact surfaces.

### Overview

FH-Klenz is an enzymatic hard surface cleaner. This unique formulation combines eco-benign<sup>®</sup> chemistry (without the use of harsh chemicals) and a consortium of enzymes to offer an innovative way of cleaning a wide variety of hard surfaces such as food contact surfaces, kitchens, floors walls, tiles etc.

This product contains an effective consortium of enzymes, all of which have been selected specifically for accelerated degradation of organic materials that build up on hard surfaces over time. The enzymes have been selected for their ability to degrade organic compounds such as grease, fats, proteins, starch and complex carbohydrates.

Continued use of FH-Klenz in residential, and institutional and industrial application provides a safe and efficient way of cleaning, degreasing, and removing stains on hard surfaces.

### Features and benefits

**Superior fully formulated product:**

Produces high performance cleaning of all types of hard surfaces (including food preparation surfaces).

**Ideally suited to kitchens and general cleaning application:**

The eco-benign chemistry along with the enzyme consortium are ideal for cleaning all hard surfaces in kitchens and other general purpose applications.

**Readily biodegradable, low toxicity formulae:**

Minimise environmental impact.

**Modern enzymatic compatible chemistry to maximum product performance:**

Optimises performance of enzymes due to the unique combination of eco benign<sup>®</sup> chemistry and application specific enzymes.

**Long product shelf life due to stability of enzymes:**

Creates long lasting, reliable high-performance.

**Manufactured in accordance with**

**recognised international standards ISO 9001:**

Ensures consistent quality of product.

### Application areas

- All types of hard surfaces, including food contact surfaces
- Tiles
- Sinks
- Urinals
- Toilet bowls
- Countertops
- Floors
- Kitchen floors and walls

- FH-Klenz is available as a dilutable product packaged in 25L and 5L jerry cans.
  - We recommend the product is diluted for use at a 1:20 up to 1:30 dilution rate for optimum performance.
  - Also available in 100ml sachets for easy dilution and product control.  
10x100ml sachets/carton
- FH-Klenz is also available in 200L drums and 1000L flow bins

### What is eco-benign<sup>®</sup>?

Our products are formulated with superior chemical technologies combined with a consortium of enzymes to have a gentle or harmless effect on the environment when an introduction is made through application or disposal.
